

# QUALITY POLICY

Aryon Pty Ltd headquartered in Brisbane provides business & technology consulting, technology integration, cloud solutions & managed IT services to the Australian Market.

Aryon is committed to:

- Assisting our clients to derive benefit from their investments in ICT solutions through the delivery of professional consulting, integration and operational IT Services.
- The selection and training of appropriate personnel to maintain high work standards.
- The monitoring of our quality of services and customer satisfaction.
- A program of review and continuous improvement.
- Compliance with contract and regulatory requirements.
- Establishing, monitoring, and reviewing measurable quality objectives in accordance with a structured framework (including SMART criteria and risk-based thinking) to ensure alignment with our strategic direction and ISO 9001:2015 requirements.

Our quality management system includes processes for analysis of customer needs; understanding the IT industry and benchmarking against best practice; and monitoring our clients' level of satisfaction after completion of any transactions. We are concerned with both our immediate clients and all stakeholders who may benefit from the quality of our work.

Our Quality system aligns with ISO 9001: 2015.

This statement indicates our commitment to customer relationships and our standards of service.

The full support of our employees, suppliers, joint venture partners, alliance partners and subcontractors is sought in actively pursuing this quest for quality.
